## FRESHMEN ARE BASEBALL CHAMPIONS

### Easily Win Second Game Of Class Series By Score Of 6-2

The freshmen clinched the underclass baseball championship by winning from the sophomores on Saturday by a score of 6 to 2. The game was a slow one from start to finish, except in the last of the seventh, when the freshmen squeezed in three runs.

Severance secured the first run by means of several bad errors by 1912. He reached first when Torrey muffed his grounder, got to second by Maxwell's muffed Taylor's throw, and went to third and home when Reeves dropped a throw to third. 1913 scored one more in the fifth when Sampson drew a pass, stole second, and came home on Reeve's error. Another in the sixth was the result of a hit by Severance, a sacrifice by Eastman, and a muffed throw to home. The other three tallies came in the seventh. Crocker hit safely, stole second, and went to third on a sacrifice by Eastman. Then Severance hit a hot grounder which went through Maxwell and brought Crocker home. Thompson hit a clean three-bagger, sending in Severance, and then himself stole home when Eastman was put out at first.

The sophomores secured their two tallies in the sixth. Maxwell reached the initial sack on an error by Elwell, took second on Torrey's sacrifice, and stole third. Then Jones drew a pass, and stole second. Both came home on Taylor's safety.

Jones held the freshmen heavy hitters to only four safe hits Saturday as against ten in the first game. Hamilton was steady and efficient always, showing good judgment in all his playing and getting four assists to his credit.

The feature of the game was the (Continued on page 2.)

## NEW YORK CLUB DINNER

### Barr 1911 Elected President Of Club For Coming Year

Kester Barr 1911, of Buffalo, N. Y., was the choice of the members of the New York state club for their leader for next year. The announcement was made by retiring president Akerly at the annual banquet of the club held at Lombardy Inn last Friday evening.

Other officers for the ensuing year were elected as follows: Vice-president, Norman Duffett 1911, of Rochester; secretary, Charles L. Gabriel 1912, of New York city; treasurer, Harold B. Davis 1912, of Lancaster; executive committee, Rosslyn Smythe-Martin 1912, of New York city and Philip Schmitt, Jr. 1913, of New York city.

New members were elected as follows: Philip Schmitt, Jr., William de Y. Katzenberger 1913, of New York city; Guy N. Harcourt 1910, Wappingers Falls; Royal P. Root 1912, of New York city; and Everett B. Wettengell 1912, of Fulton.

After the regular business of the evening had been concluded Tech songs and songs from the various Tech Shows were sung.

The authorities of Tufts Medical College are expecting soon to receive between \$200,000 and \$250,000 from the estate of the late George A. Frye, who died a short time ago in Boston, and who had no relatives left at the time of his death.

## Chamberlain Breaks Discus Record

### In Meet Ending 80 1-2 To 75 1-2 In Tech's Favor--Other Records Established

(By L. G. F.)

Technology's track team upset all calculations as to the result of the dual meet with Wesleyan, held at Andrus Field, Middletown, Conn., Saturday afternoon, when the representatives of the Cardinal and Gray easily captured 80 1-2 points to their opponent's 45 1-2. Out of a possible fourteen first places, Tech took ten; eight seconds and six third places went to Institute men. Twenty-four men went on the trip and twenty of them returned with cups.

Weather conditions were good but the track at Middletown was not as good as is the one at Tech Field; it had recently been made over and was heavy with clay; our men did not seem to mind that very much however. Two Wesleyan and one Tech record were broken. In the shotput, Parkinson established a new record of 40 ft. 4 1-2 in.; Bacon, in the low hurdles clipped a fifth of a second off his record of last week in the Williams-Wesleyan meet when he completed this event in 26 1-5 seconds. O. V. Chamberlain 1911 hurled the discus 115 ft. 2 1-2 in., breaking the Tech record of 110 ft. 2 1-2 in., held by L. G. Morrill 1905. Three Technology men won their T's. H. Greenleaf 1912 by winning the broad jump and the pole vault; W. J. Pead 1910, by capturing first in the hurdles and J. L. Bray 1912 easily taking first in the hammer event, with a throw of 116 ft. 10 in.

#### Sprints.

As was expected, Robson of Wesleyan won the dashes but C. E. Trull 1913 showed up second in good shape. He had no chance of beating Robson, while Hastings who finished third was close behind. In the 220-yd dash, the freshmen sprinters, Burnham and Trull, followed closely, Burnham finishing just a second after the Wesleyan record holder had broken the tape.

There was a fine battle in the quarter-mile between W. C. Salisbury 1911 and Wood, the fastest Wesleyan man. Bill, who had the pole, started with the gun just a fraction of a second ahead of the other runners. Wood was directly behind him and when they came to the finishing sprint, he tried desperately hard to take the premier position but Salisbury breasted the tape first with the time of 52 seconds for the lap.

The high hurdles was the most closely contested of any event, the three leading men finishing only a few inches apart. Pead, who carried off first place for Tech, showed great form, clearing every hurdle while Wendell, the second man and Capt. Bacon of Wesleyan did not clear some of theirs. G. B. Cummings 1910 and Pead were Tech's entries in the low hurdles but they were not quite in the same class as Bacon in this event. He came down the track like a whirlwind, establishing a new Wesleyan record of 26 sec. Cummings was second with Pead third.

#### Distance Runs.

J. D. Mackenzie 1911 led the field for the first lap in the half mile, with the other Tech entries, P. D. White 1911, R. D. Sampson 1913 and W. R. Bylund 1913 running third, fourth and fifth. Directly after the quarter had been covered, White sprang into the lead, leaving the two Tech freshmen to fight for second place. The order of the finish was White, Bylund and Sampson.

There was nothing to the mile run but L. O. Mills 1911. He started in the lead

and kept increasing his distance from the bunch to the very finish. E. B. Germain 1913 and R. D. Van Alstine 1912, Tech's other entries were running second and third at the end of the third lap. Harris of Wesleyan was at their heels. Germain began to pull away from Van Alstine and Harris, decreasing Mills' lead by half. Harris by a mighty spurt passed Van Alstine and finished third.

For the first half of the two-mile run H. G. Watkins 1912, the cross-country captain, led. Following him was Connor of Wesleyan with E. E. Ferry 1912 a pace behind. Ferry passed the Wesleyan man in the fifth lap and in the sixth and seventh he was in the lead with Watkins a very close second. At the start of the last lap, Watkins darted to the front, finishing first with Ferry a close second. Connor of Wesleyan was third.

#### Field Events.

P. W. Dalrymple 1912 had little trouble in capturing first in the high jump. H. B. Alvord 1912 tried hard to clinch second but both the Wesleyan jumpers have been at the game longer than he, so Wright got second and Alvord had to be content to share third with Sutherland. Alvord won the cup on the toss.

Allen, Tech's best pole vaulter, lost first place in his event by refusing to take 10 ft. 9 in. and he failed at 11 ft. H. Greenleaf 1912 was the only man to clear the bar at 10 ft. 9 in. so he was credited with first place. Allen won second at 10 ft. 6 in. and Boyd and Harmon, both of Wesleyan, shared third. In his second try in the broad jump, Greenleaf leaped 20 ft. 1 1-2 in., which was the best distance for the event. Capt. Allen, in spite of his injury, landed second place with a jump of 19 ft. 10 in. Third place went to Hill with a distance of 19 ft. 2 in.

Tech with only two men entered in the weight events, took twelve points. Chamberlain took first in the discus and thirds in the shot put and hammer. Bray easily captured first in the hammer throw with a cast of 116 ft. 10 in. Wesleyan was strong in the shotput, having three good men in Parkinson, Hanna and Bacon. Chamberlain just beat Hanna for third place. His record throw in the discus was a peach. Just before this, Chamberlain made a long throw and wanted it measured but he was declined the privilege in as much as it was a practice throw and did not count. Then came his long throw of 115 ft. 2 1-2 inches. Hanna who was second could only get 106 ft. 1-2 in. Bray was the lightest of the men throwing the hammer by far and yet he was in the best form. Winning this event gives him his T.

#### The summary:—

## THE ARENA

Chamberlain '11 got mad when they wouldn't measure his long practice throw at Middletown Saturday, so he broke the Tech record on his next try by throwing over 115 feet.

Bacon, Wesleyan's star hurdler, ran a powerful race in the low hurdles, neither Cummings nor Peal had the least chance for first.

The weight events certainly made the Wesleyan men open their eyes. And Tech only had two men entered, Bray and Chamberlain against six of their opponents.

Allen, the pole vaulter, made a rather bad break when he passed 10 ft. 9 in. and failed at 11 ft., but it turned out all right, since Greenleaf beat out the nearest Wesleyan man.

H. Greenleaf 1912, Tech's star point gainer, is certainly coming right up to the front in the broad jump.

Capt. Allen missed third place in the discus by three inches. He did not enter the hurdles, but took second in the broad jump.

E. H. Lorenz 1905 and A. R. Hunter 1905, both old cross-country men, represented Tech among the officials. Several times they forgot that they were officials and let out a whoop of victory for Tech.

Mt. Watkins, father of H. G., the winner of the two-mile run, went on the trip with the fellows. He's the one royal rooter of Tech's track team.

When Tech cleaned up the distance runs, the fellows began to smile, but when we took two firsts in the weight events and Greenleaf got first in the broad, the enthusiasm could not be down.

Did everyone see how Dartmouth came out in the meet with Harvard? Score—Harvard 91 5-6. Dartmouth 34 1-6. Perhaps Tech will be counted in on the Intercollegiates.

## GENERAL NEWS

TELEGRAPH NEWS OF THE MORNING.

### WEATHER REPORT.

Forecast for Boston and vicinity.—Monday unsettled, cloudy with occasional showers.

Baseball? Oh, yes, Boston still has two base-ball teams. If one looks through the standing of the American and National Leagues he will find the name Boston, but he will save time by beginning his search at the cellar end. The Red Sox are in sixth place with seven games out of seventeen to their credit; the Doves are also in sixth place with six out of sixteen. The Sox can slam the ball all over the lot, but when hits mean runs they don't show up. Two and three men left on bases is a common occurrence. The Nationals have started on a long trip, but neither away or at home have they showed any signs of classy ball playing.

Just what power will come to the new king of England is shown by the enormous area of the empire over which he rules and the number of people who live under his flag.

In round numbers, according to the last estimated census, the total area of the British empire is 11,868,834 square miles and the population is 396,768,371 souls.

Of this the population of the United Kingdom, consisting of England, Wales, Scotland, Ireland and the Islands, is but 41,976,827, and the area in square miles is 121,391.

Harvard and Yale clash next Saturday at Cambridge, the occasion being the annual dual meet. It is generally expected that the result will be very close.

At New Haven Harvard is said to be the favorite, the figuring that the score should be about 50 to 48. But this does not mean that the Blue will not fight in the same old bulldog manner.

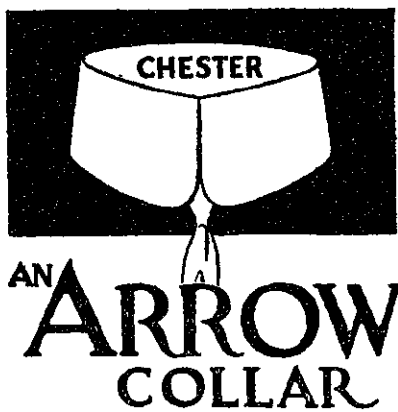

The annual "Dead Horse Hill Climb" at Worcester will be held this year on June 4. This is one of the most important automobile competitions in this part of the country.

Two or three pleasant days lately have given excellent opportunity for observing Halley's comet, which has now passed its nearest point to the sun and is rushing away on the beginning of a new seventy-five year round-trip. It has yet however to pass its nearest point to the earth. This passage will be made on May 18, and after that date it will be visible in the evening shortly after sundown, rather than in the early morning hours, as is the case now.

Professor Frost of the Yerkes Observatory turned the spectroscope on the comet the other day, and in addition to detecting sodium in its makeup there were distinct traces of hydrocarbon, as well as cyanogen. Professor Frost finds no trace of cyanogen in the tail. The spectrum of both the comet and the tail is continuous.

St. John's, N. F., May 8—The maiden voyage of the steamer Normandy, bound from London to Toronto, ended suddenly early yesterday when, in a dense fog, the Normandy crashed into Great Island, near Bay Bulls, about 20 miles from here, and an hour later worked off the shoal and sank in 25 fathoms of water. She had aboard 26 men, commanded by Captain Hawthorne, the captain's wife, three children, and two maids, all of whom made shore safely in the ship's lifeboats.

The invention of a successful pocket wireless telegraph apparatus by Prof. Cerebotani of Paris, France, was announced in the press of the world several months ago, but until recently little was known of the details of the instrument. It is described as having a wooden face on which are printed the letters of the alphabet, a pointer on the dial indicating the letters which are sent from the instrument in the hands of some other operator. This simple arrangement it seems, makes it available for the unscientific man as well as the skilled operator.

## NOTICES

### ELEMENTS OF ELECTRICAL ENGIN- EERING 653—COURSE II.

The regular Friday lecture will be held this week instead of the recitations, as previously announced.

HARRISON W. SMITH.

### LECTURES BY MR. BARNABY.

Lectures will be given by Mr. Sidney W. Barnaby at 4.00 P. M. in Room 11 Engineering Building B on the 10th, 12th, 16th, 18th and 20th, to students of the Department of Naval Architecture and Marine Engineering. Students of other Departments are also cordially invited to attend.

C. H. PEABODY.

### COURSE ISSUES.

The Tech is considering having sets of the Course issues bound. The price will of course depend on the number. If those who would desire such a volume would signify such desire by leaving a note to that effect in one of The Tech boxes, matters would be greatly facilitated.

It is understood that this note would in no wise bind the writer, provided the price was considered too high.

The pages have been numbered consecutively in each issue so that they will go together very well in bound form; and so arranged, they would be a source of information on the various courses from a personal standpoint that is nowhere else to be found.

**SANITARIANS**—Remember the Business Meeting of the Biological Society today at 4 P. M. in Room 28, Pierce.

Alone and with only his personal bravery and pluck to bring him back alive, Sumner W. Cushing of Brockton a Harvard graduate and scientist, is soon to make one of the most daring expeditions ever undertaken by man into the heart of eastern India, a country infested with diseases and thronging with cannibals and bloodthirsty wild men.
